

Green Day 28th April

Hello

The Roundhay Environmental Action Project (REAP) is a community based environmental organisation, founded in June 2007 by local residents with the initial aim of setting up a local Farmers' Market. REAP has since extended its activities by forming special interest groups on the themes of Energy, Gardening, Transport and Education.

REAP Energy Group is working to help the residents of Roundhay to reduce their carbon footprints and energy bills, by providing them with information on what is possible in the type of housing that is typical of Roundhay and to provide them with examples of what local residents have already achieved.

On the Green Day, residents will be able to visit other people's homes who have already had solar PV, solar heating, biomass boilers, insulation (roof, floor, cavity wall, solid wall etc), ground source heat pumps, wood burning stoves or other environmentally friendly products installed and ask them about the cost, savings and any issues associated with the technologies.

We are looking for additional residents who already have some renewable energy products installed in their properties to volunteer to to allow interested people to visit your property on the Green Day.

If you are willing to volunteer, please complete the questionnaire overleaf and return it to:

REAP, 37 The Drive, Roundhay, Leeds LS8 1JQ

You can also download the questionnaire from the REAP website at www.reap-leeds.org.uk and return by e-mail to info@reap-leeds.org.uk.

Thank you

REAP

We will be holding the Green Day on the 28th April 2012

	Information
Contact details: Name Address Postcode	
Telephone:	
Email:	
Technology: i.e. solar heating, PV, woodburning stove, biomass boiler
